Fräsch warrants all products to be free of defects in materials and craftsmanship for two years from the date of purchase to the original customer. See our two-year warranty sheet for full details.

Due to the "heathered" effect of the material, slight and consistent variations in color may be present.

Felt thickness may vary slightly between colors. Color balance on monitors and printers vary; please request a color sample for the most accurate representation of colors.

Due to PET's recycled nature, fibrous strand mixing and needle punching process, subtle tonal and shade variation between dye lots and within dye lots may occur. Fräsch makes every effort to minimize the shade variations within the same color during manufacturing, but some subtle differences may occur and should be expected.

Refer to product specs for material thickness before selecting your color.
