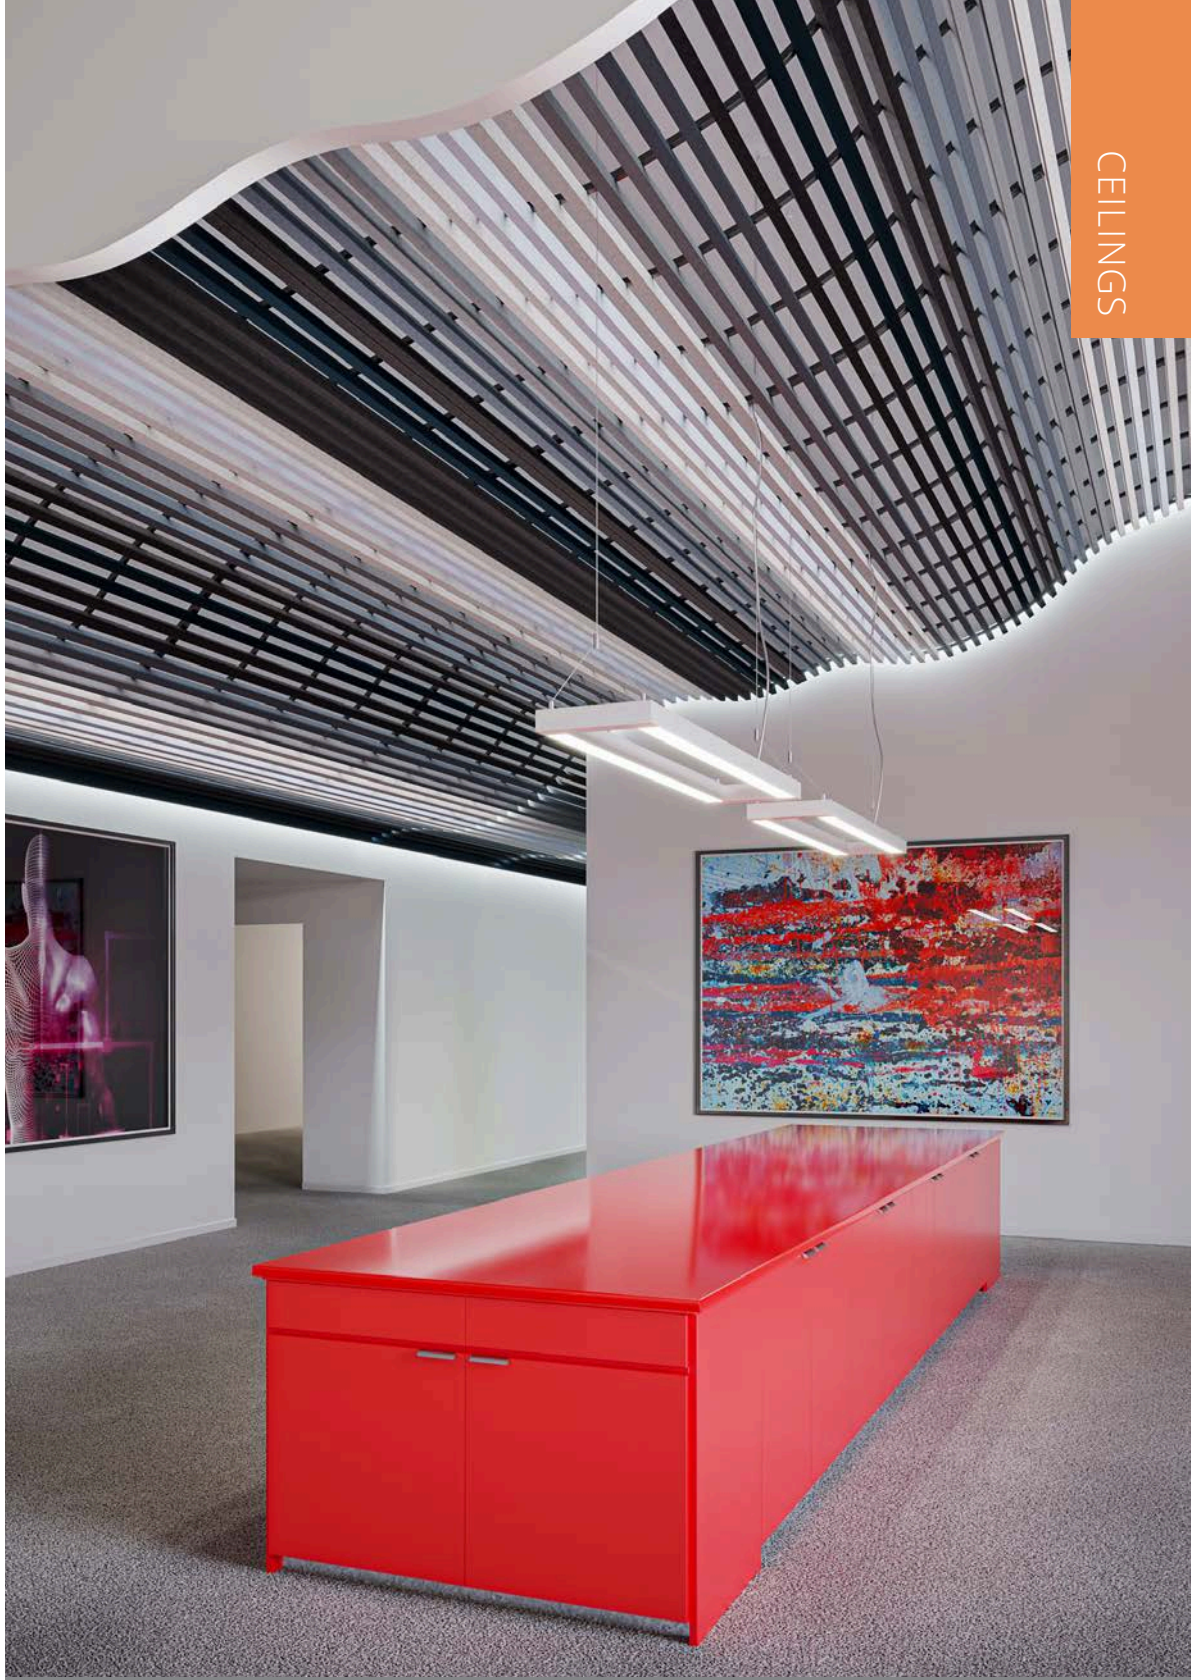
LINYFELT

Discover the epitome of clean lines. Mix alternating heights, lengths and colors for that perfect “wow” factor. Linyfelt easily installs into a dropped ceiling grid or Unistrut with first-to-market specialty hardware.

frasch.co/linyfelt



STRATAWOOD

Simple and refined look of linear wood, Strata is the ultimate in bespoke design and acoustic performance. With both wall and ceiling applications your options are endless.

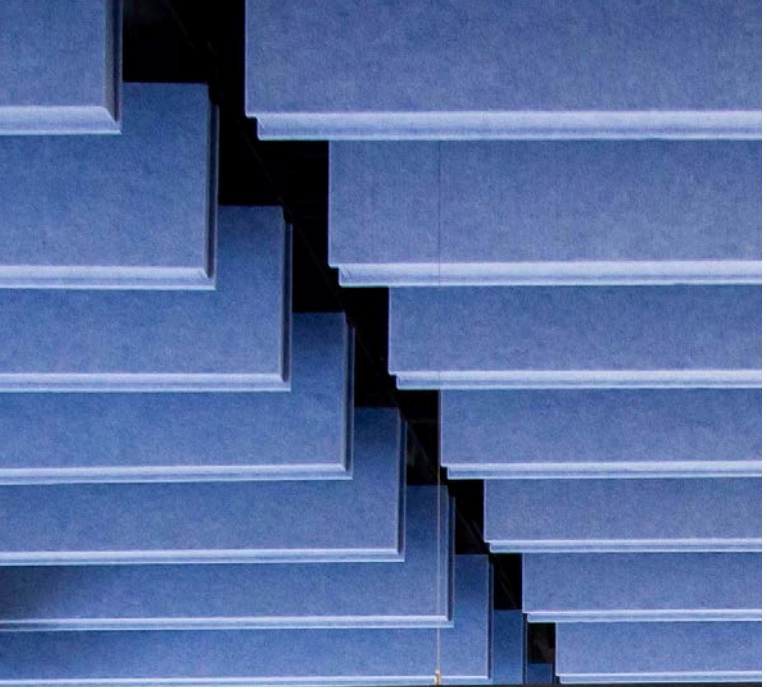
frasch.co/strata/

BLADE BAFL

Crisp folded edges make this style of BAFL slim and seamless. This allows for continuous runs and printed patterns with sharp edges.

NRC | 1.10

frasch.co/blade-bafl/



CLASSIC BAFL

LIT BAFL

TILT BAFL

Classic elegance provides optimal acoustic performance in multiple configurations.

NRC | 1.10

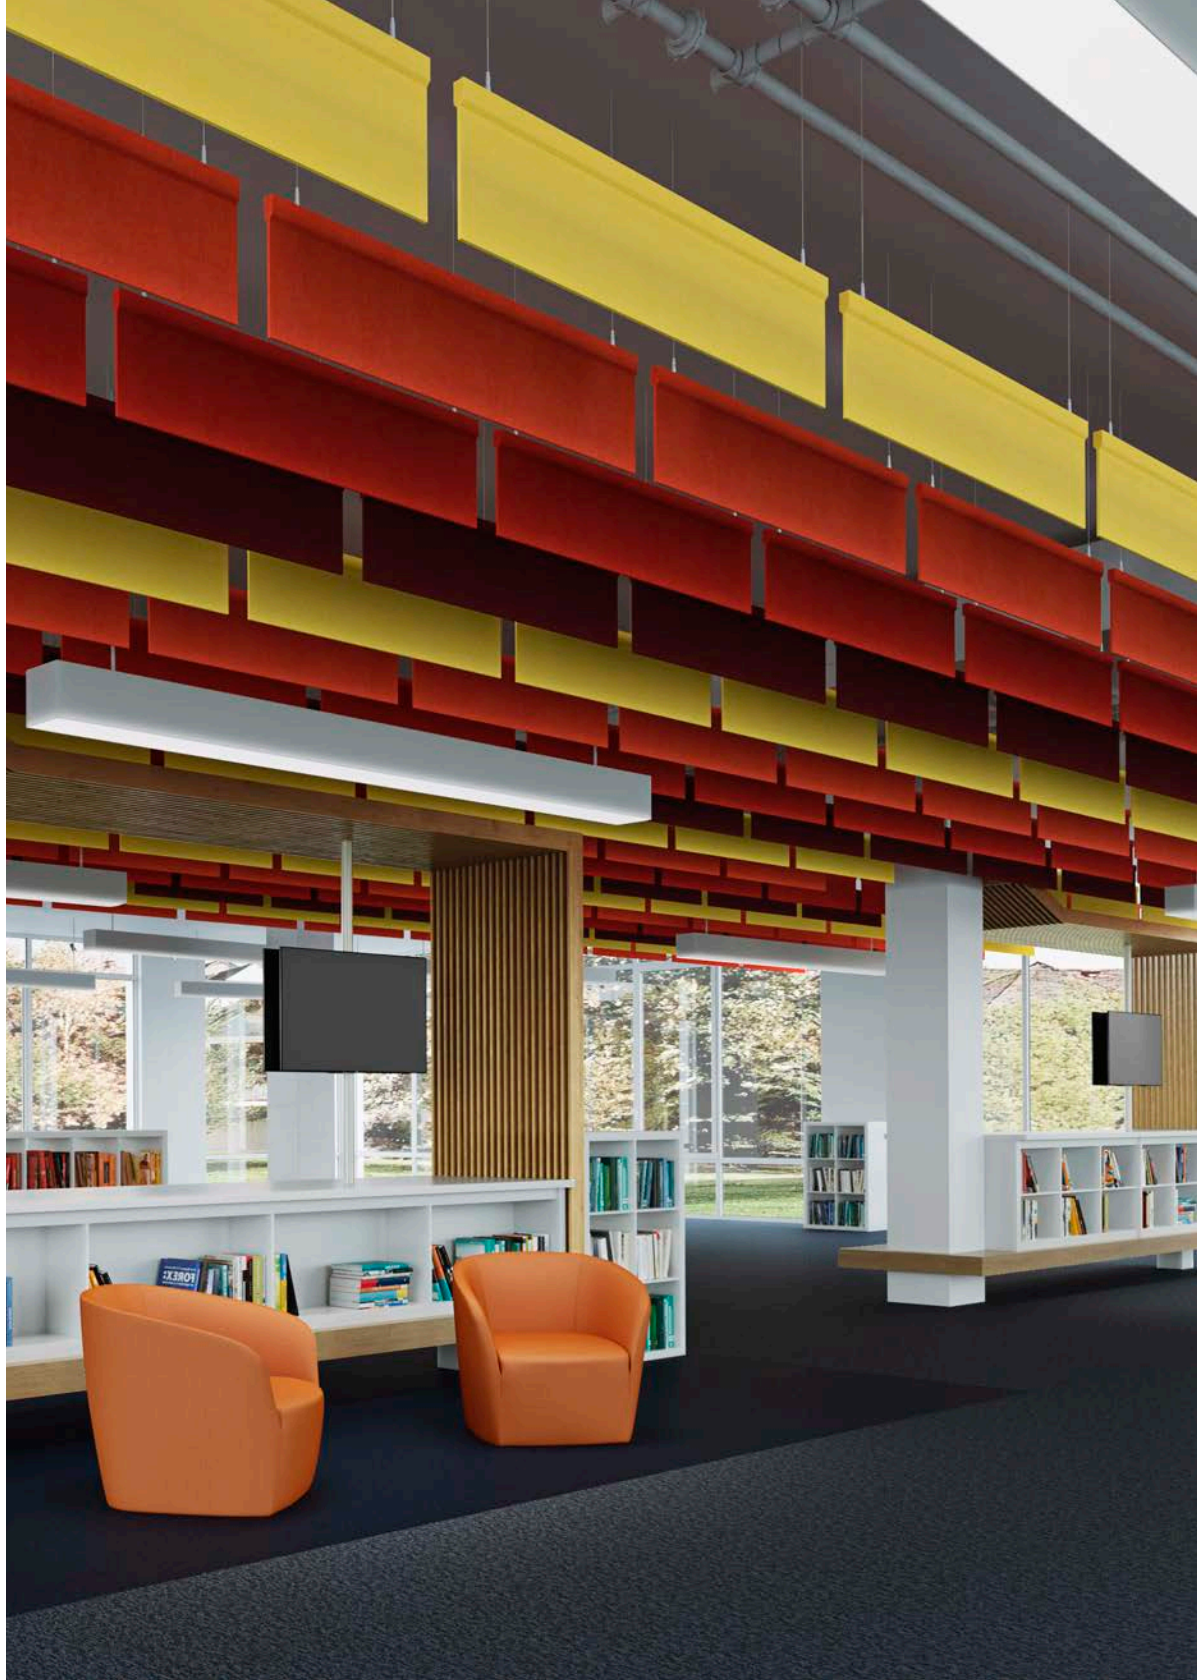
frasch.co/ceilings/

TRI BAFL

Triangular geometry creates angles and can be positioned for a unique look.

NRC | 1.10

frasch.co/bafl-tri/

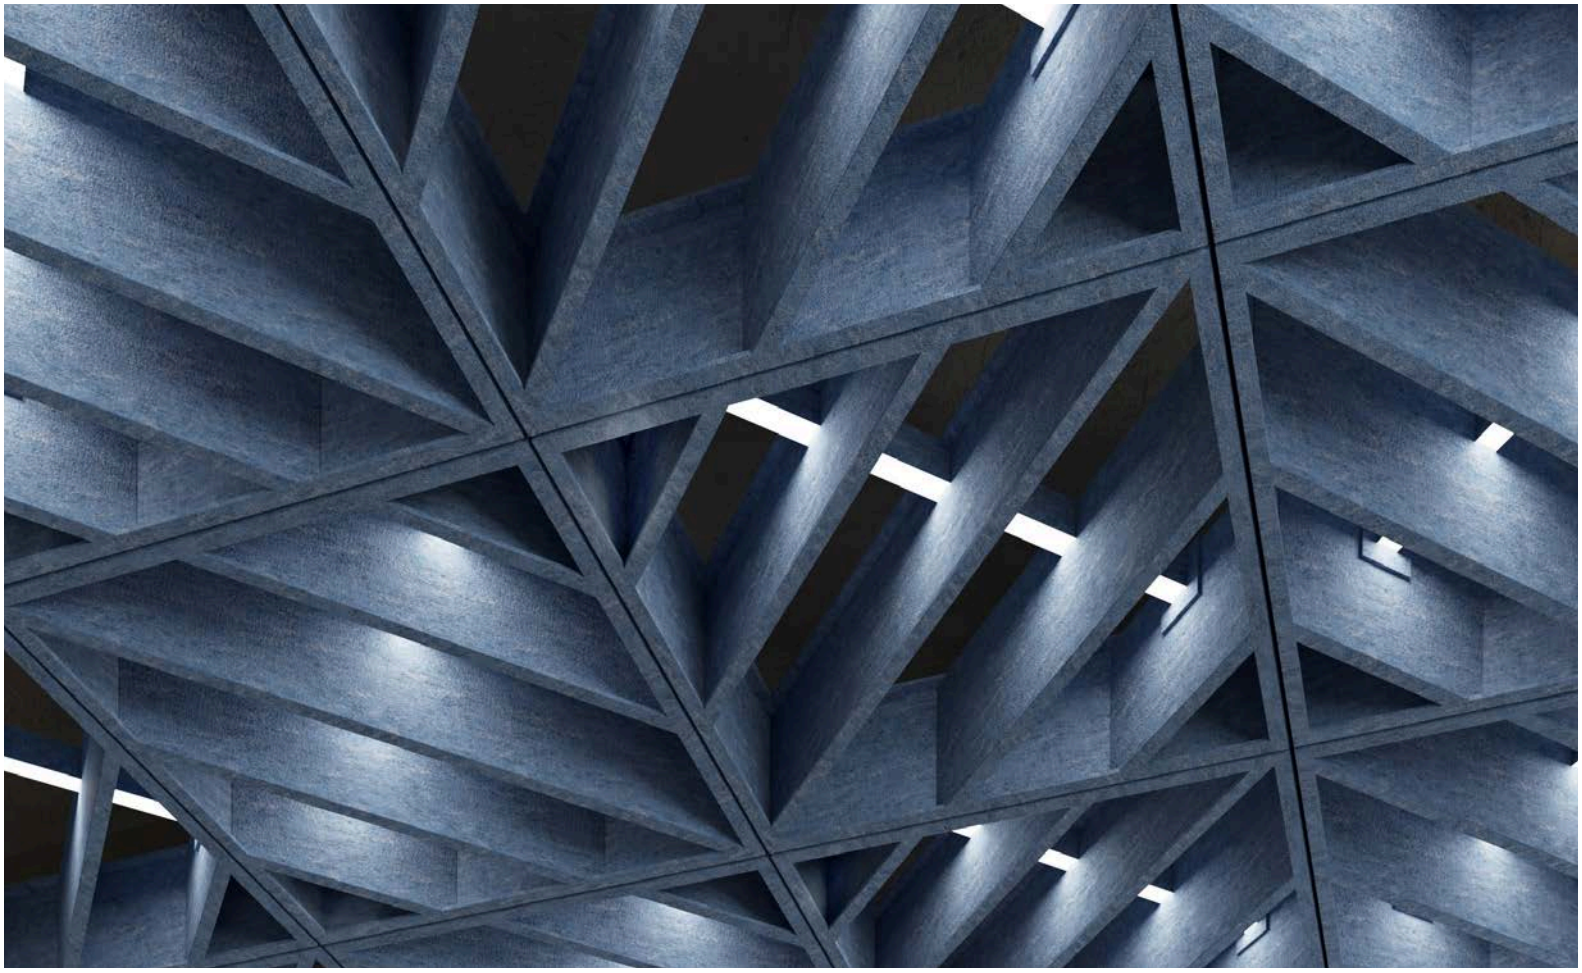


SKINNY BAFL

Our regular baffle in a slimmer model; an understated aesthetic can still make a bold statement.

NRC | .75

frasch.co/skinny-bafl/



WAFL
BAFL

Diagonal construction in a lightweight form create unique geometry in a waffle-esque grid. Available with lighting for filtered illumination.

NRC | 1.25

frasch.co/wafl-bafl/

BOX
BAFL

Simple and beautiful, create height or a patterned design with optimal acoustic performance. Also available with incorporated down-lighting.

NRC | 1.25

frasch.co/box-bafl/

NEST

90-degree and 45-degree fins intersect to make a geometric nest shaped cloud. Create a randomized look by alternating the orientation of each cloud.

NRC | .95

frasch.co/nest/

TIMBER

Radial design with an optional light can be oriented in a nearly unlimited array of configurations, patterns and colors.

frasch.co/14six8-designs/timber/

frasch.co/14six8-designs/dew/

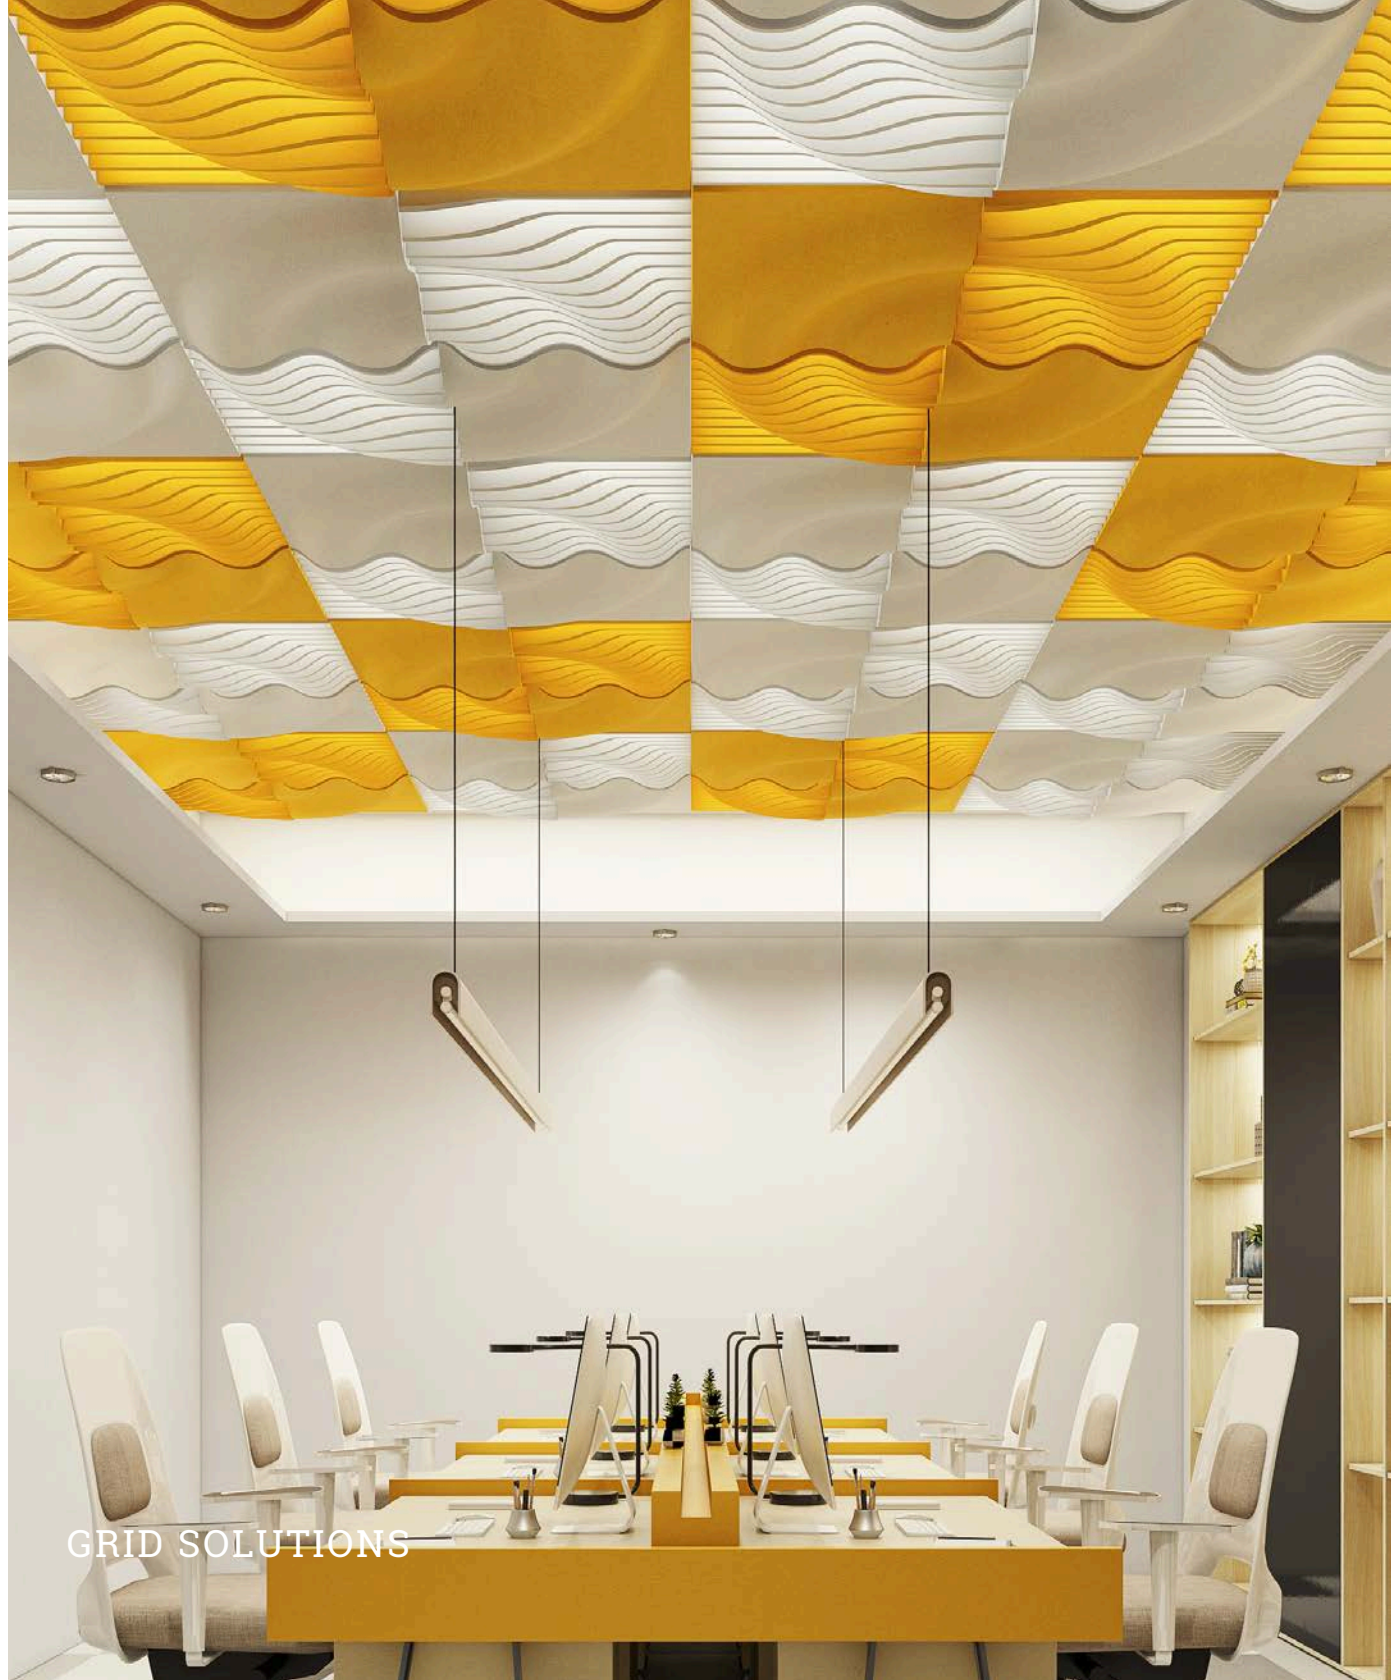
Interlocking disks create a compelling suspended acoustic system customizable to size and color.

DEW

VIBE NAMI

Prepare to make waves with a beautiful ceiling or wall design and an exceptionally easy installation process.

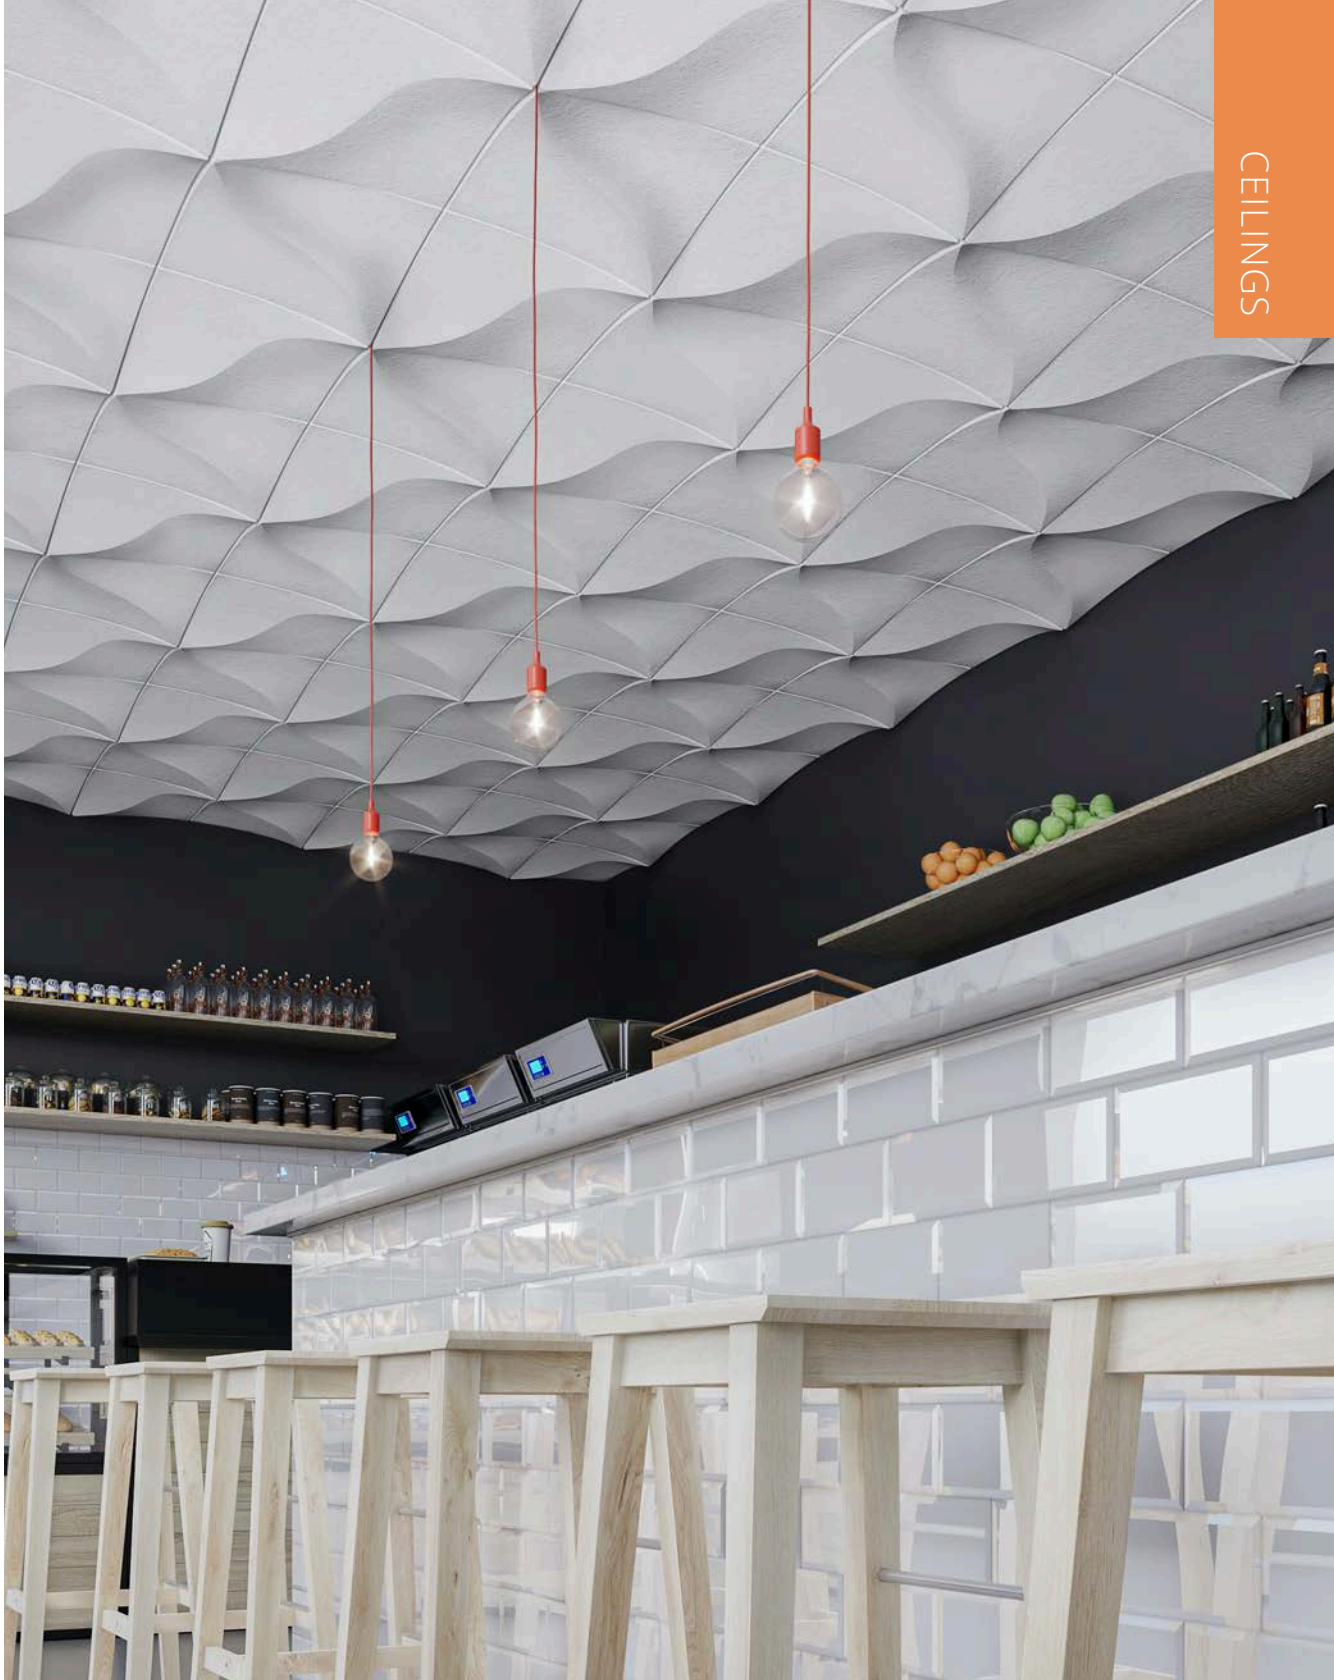
frasch.co/vibe-nami/



VIBE SWAY

Like a cresting wave, provide a sense a gentle movement to any dropped ceiling or wall with VIBE SWAY.

frasch.co/vibe-sway/



VIBE CLIF

Architectural geometry creates a three-dimensional ceiling application that can snap right into a T-Grid for optimal acoustics.

frasch.co/vibe-clif/

CLOUD

CLOUD comes in three shapes: circle, square and hex.

TRIANGLE

SÖFWAL

SIDE | BACK DIVIDER

Desk division is more important than ever. From single desk options to benching workstations, Söfwal dividers offer solutions that will stand the test of time.

frasch.co/sofwal

SÖFWAL

FREE-STANDING WALL

Provide unique functionality to shared spaces by creating a sense of privacy in an open floor plan office or community setting.

frasch.co/sofwal

DIVIDERS

SÖFWAL

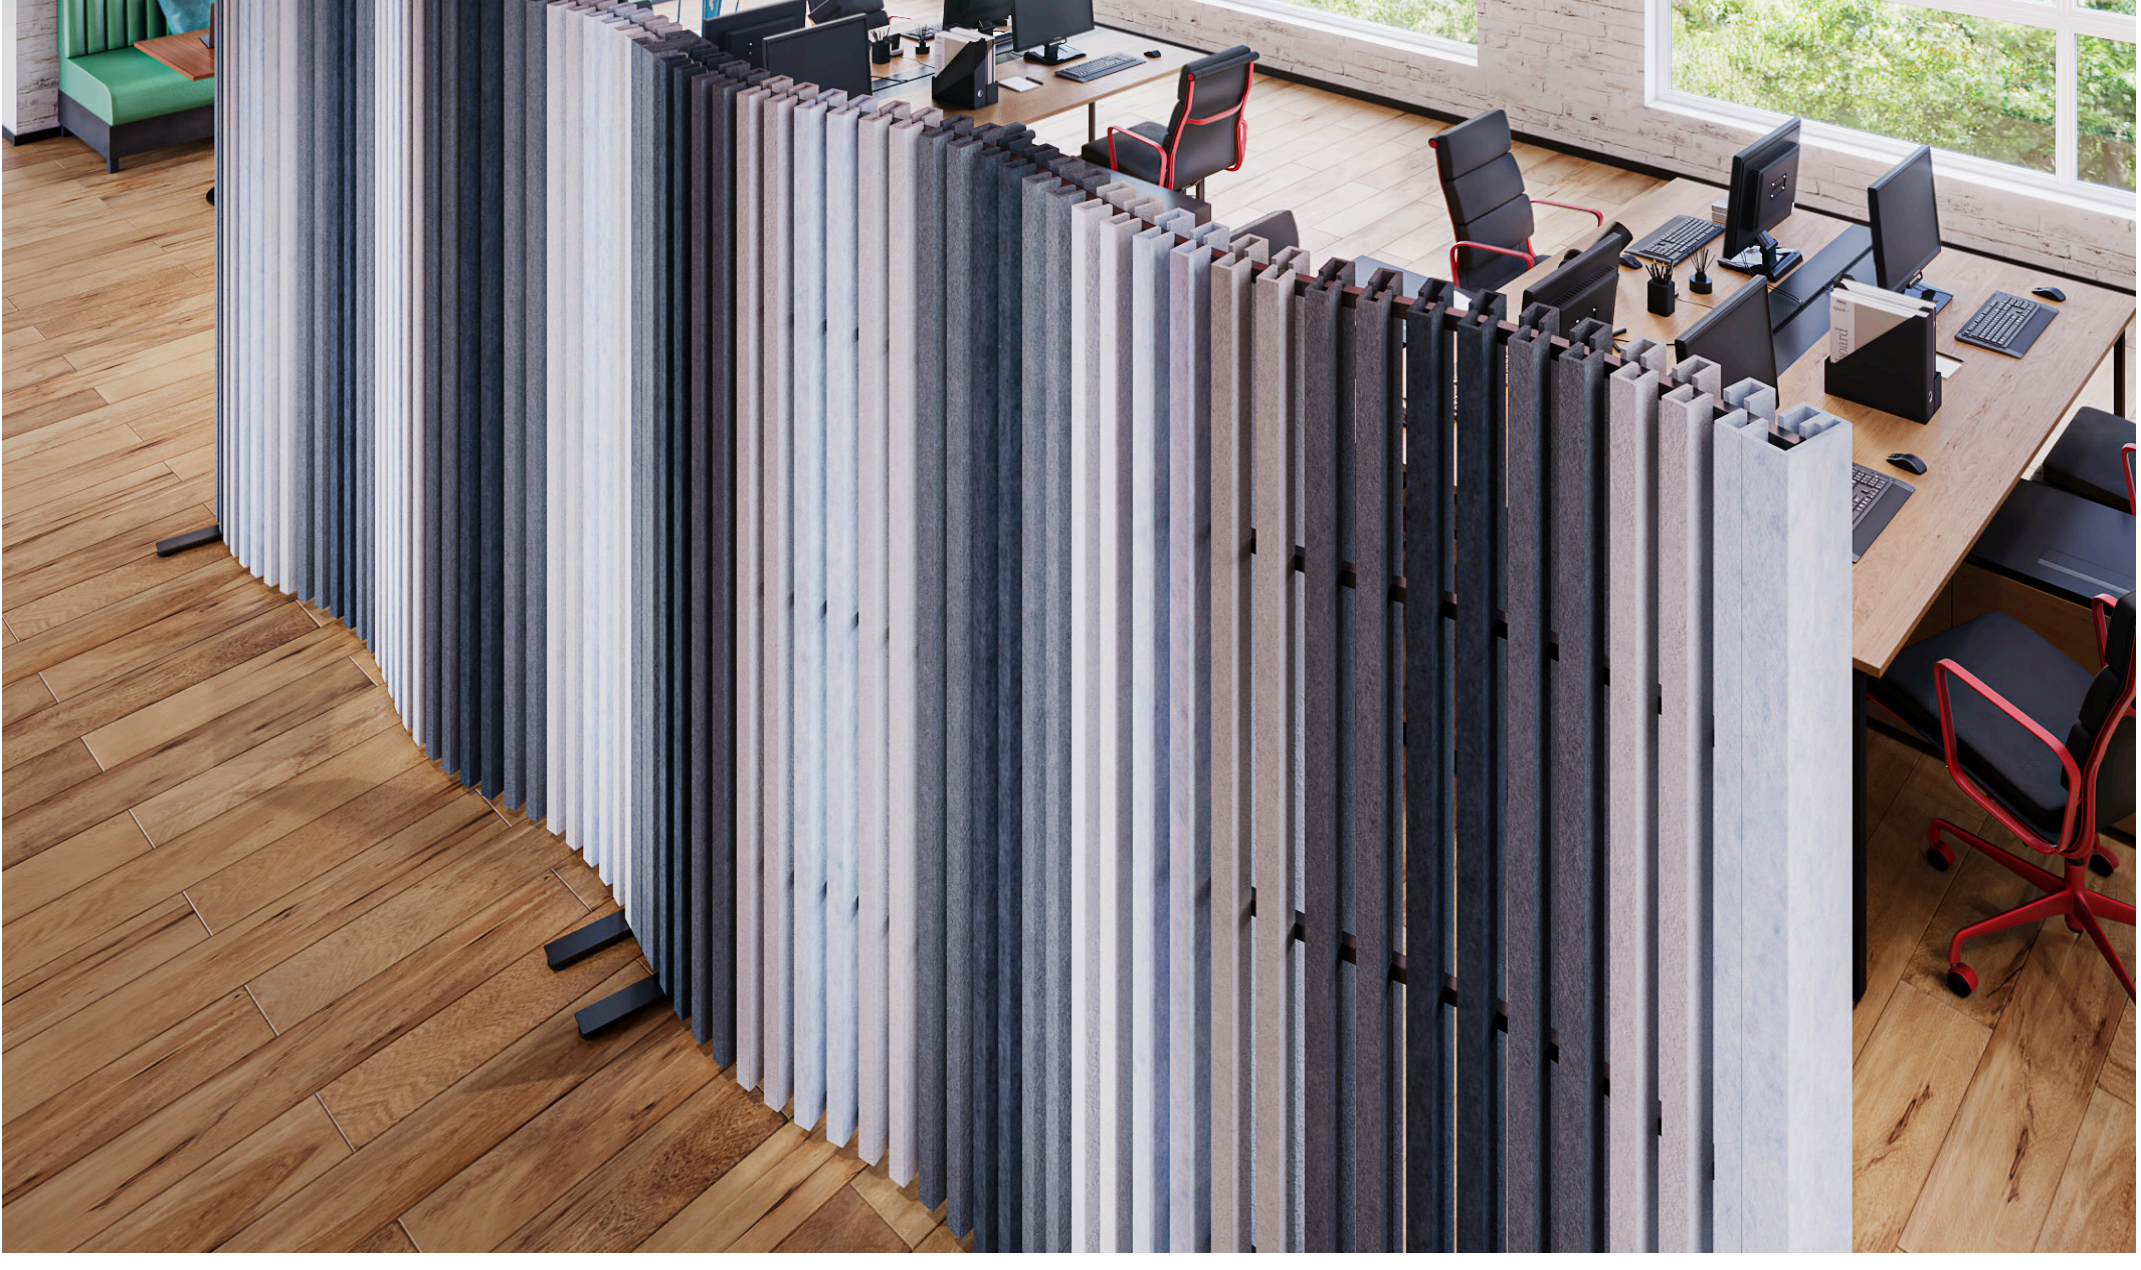
BARN DOOR SLIDER

A contemporary alternative to a classic barn door design allows for both privacy and noise control. Sound blocking vinyl inserts are available for an added level of noise control.

frasch.co/sofwal

Track-based sliding wall panels allow for quick and easy privacy with a robust yet airy design. Optional acrylic insert allows light through while still providing a physical barrier.

SÖFWAL
TRACK SLIDER



LINYFELT WAVE

FREE-STANDING WALL

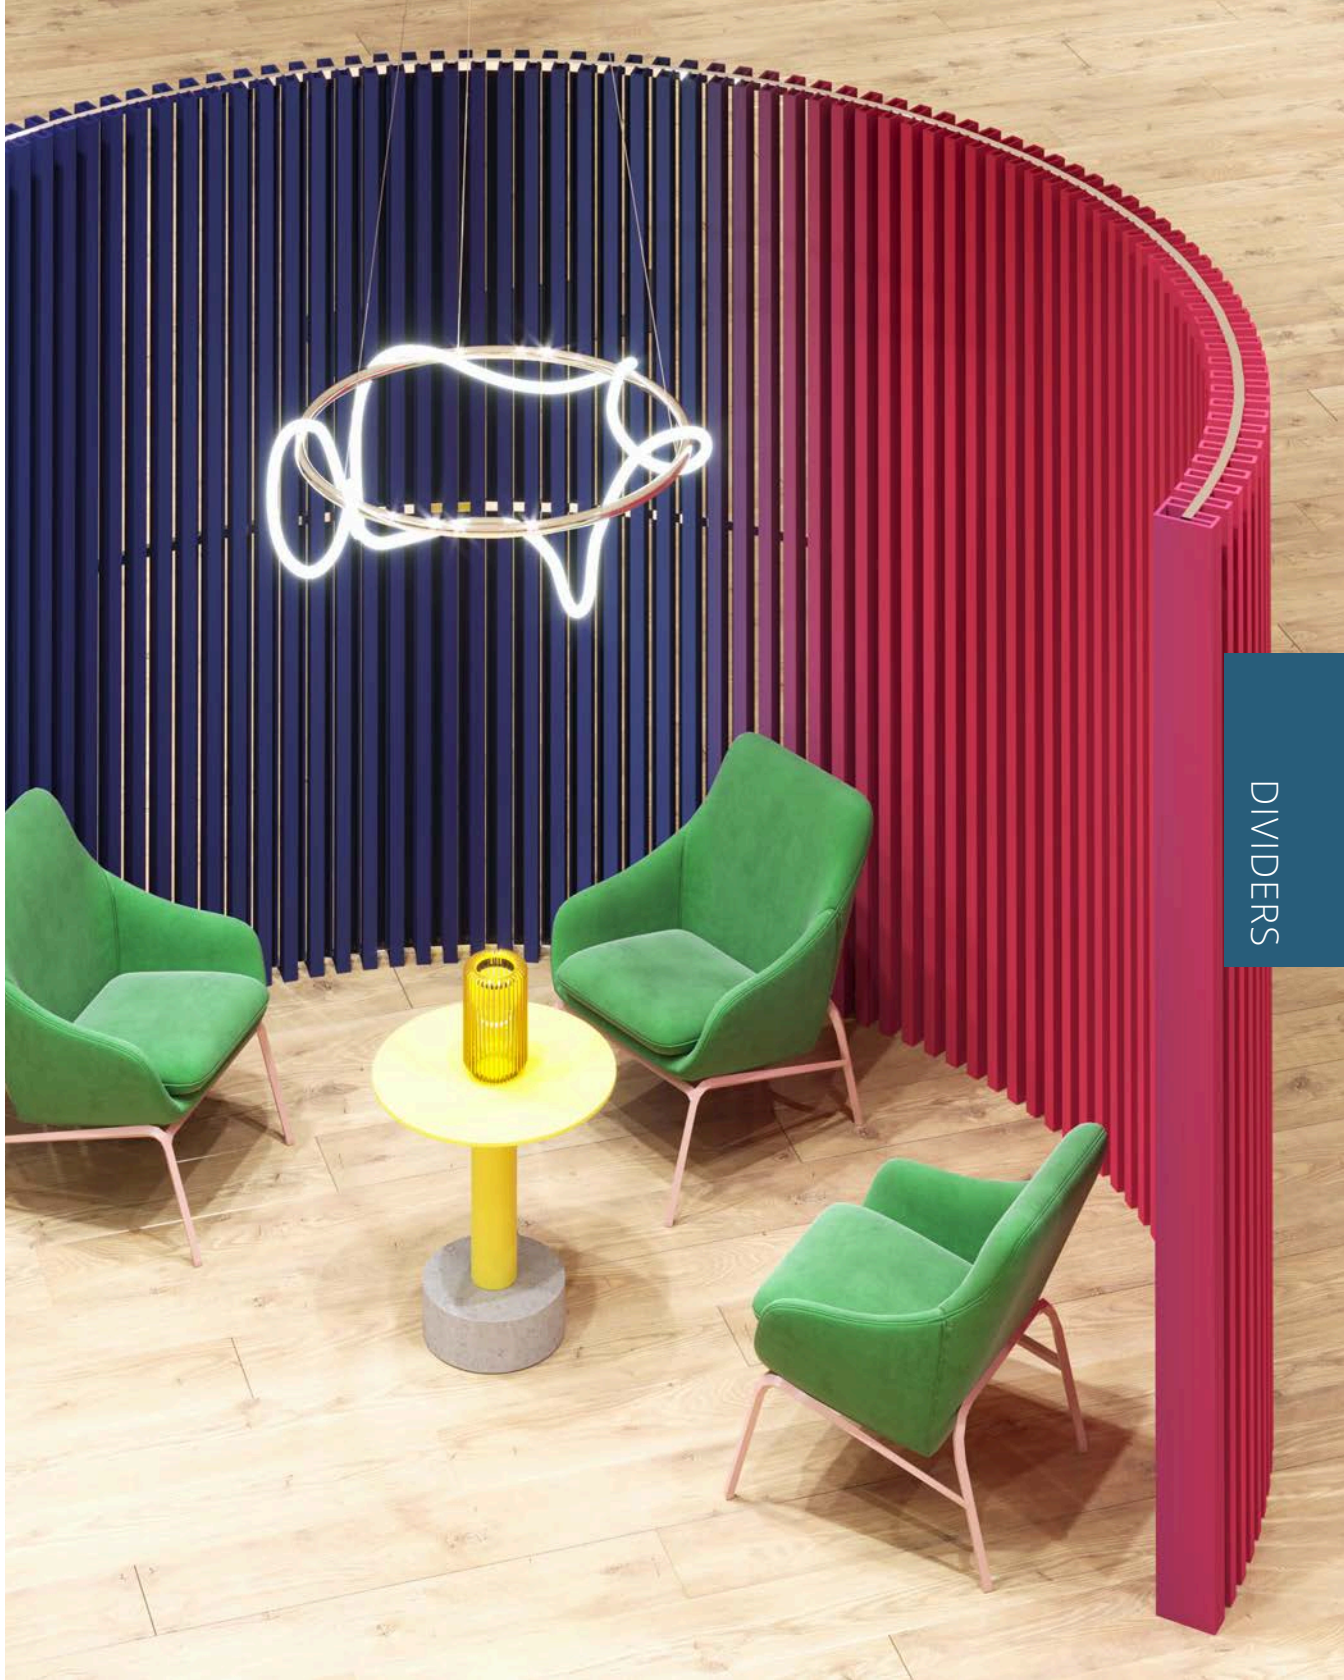
Create some flow with LINYFELT Wave, a unique room divider that can be joined together to create a continuous vertical slat wall.

frasch.co/linyfelt-free-standing-wall/

LINYFELT ROUND

FREE-STANDING WALL

Create a cozy nook with optimal acoustic performance. This unique, rounded design brings added dimension to your space.



LINYFELT STRAIGHT

FREE-STANDING WALL

LINYFELT Straight provides the perfect modular division solution for multifunctional spaces.

frasch.co/linyfelt-free-standing-wall/

DIVIDERS

GARDEN

PANL

Create a compelling patterned design for visually-distinct acoustic division.

frasch.co/panl

SPOKE ROUND

Function and whimsy work together with curved, radial petals for a suspended lighting system. Create a unique installation or use individual fixtures to define a space.

frasch.co/spoke-light/

frasch.co/spoke-light/

Sound absorbing materials in a contemporary design work with high-performance LED lighting that optimizes both lighting and sound with unique architectural elements.

SPOKE PEAR

CLOUD LIT

Cloud's square and circle shapes have an option for added lighting to incorporate into the design.

NRC | 1.30

frasch.co/cloud/

TEARDROP

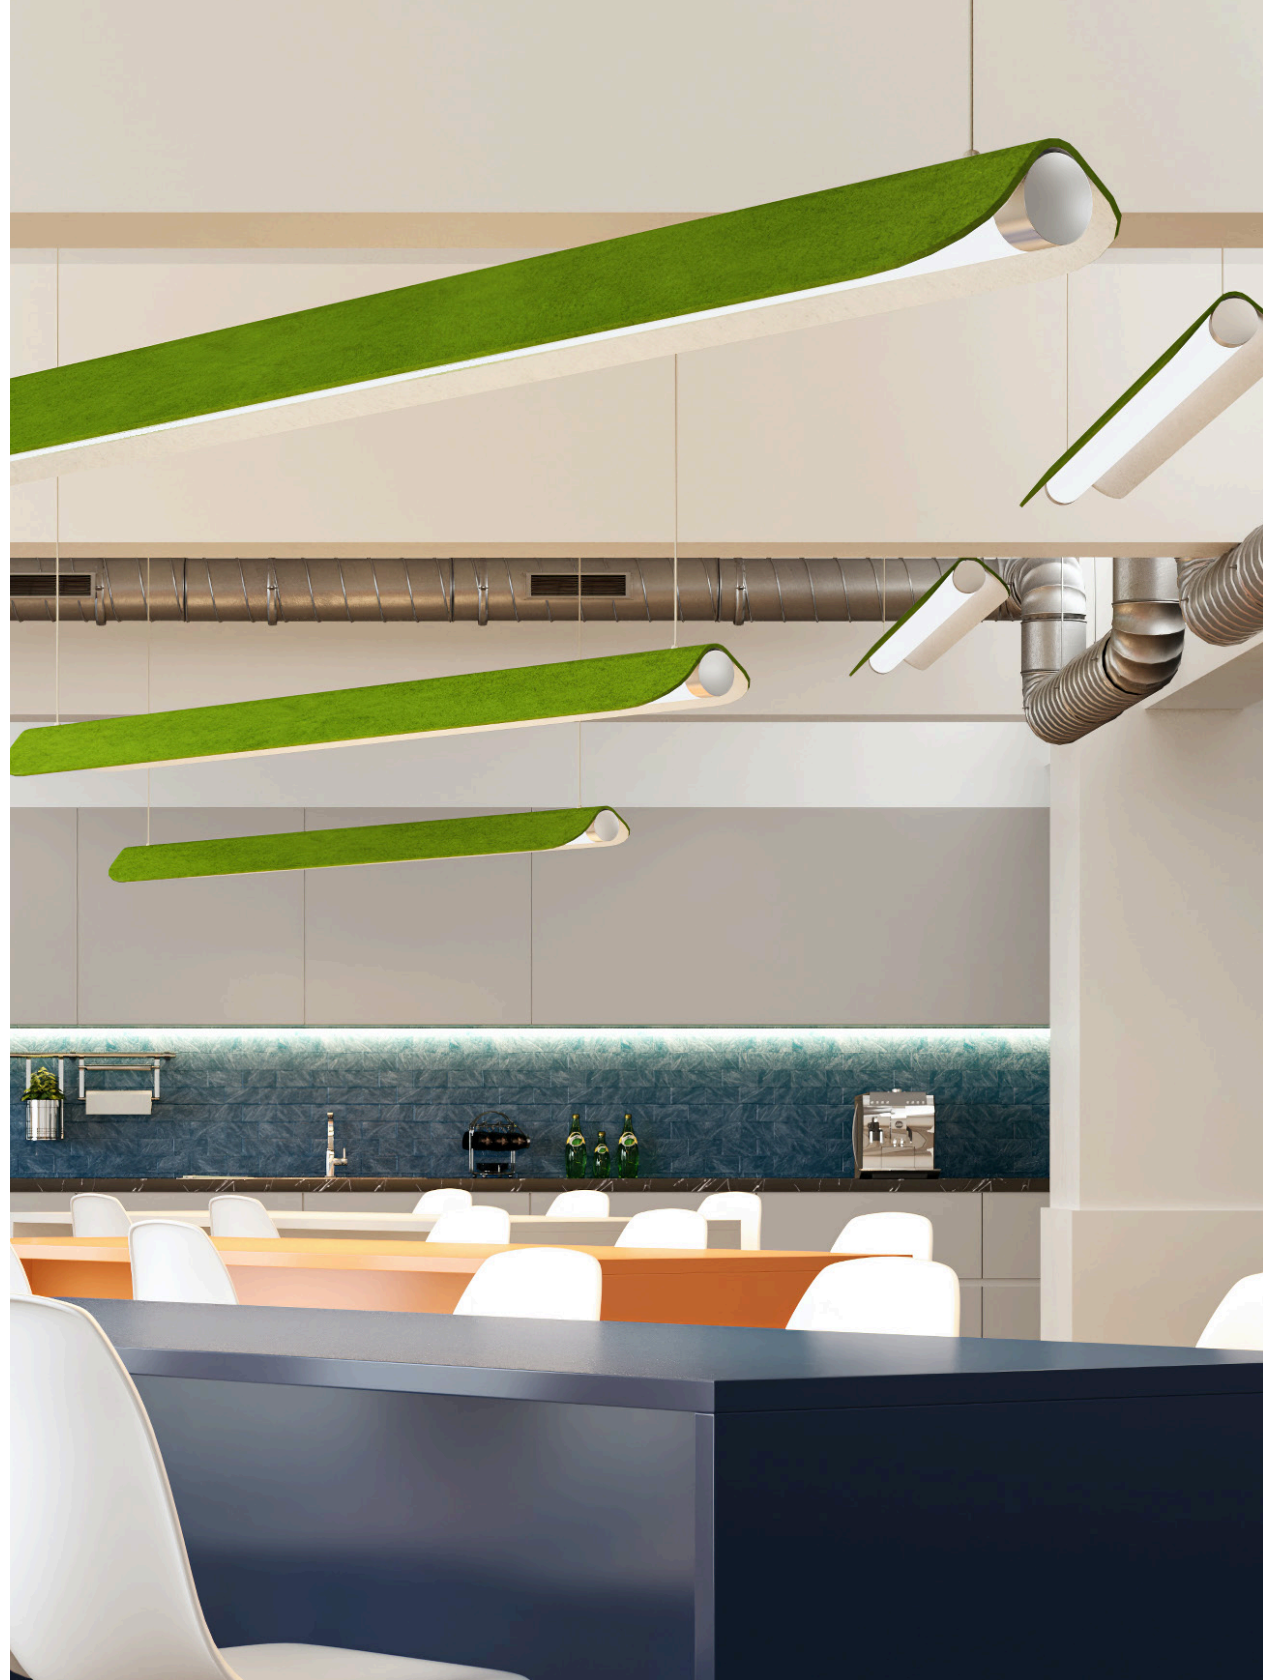
TEARDROP drum light fixture is a tapered shaped PET baffle housing with a design inspired by the human eye. The hollow cavity design creates high-performing sound absorption.

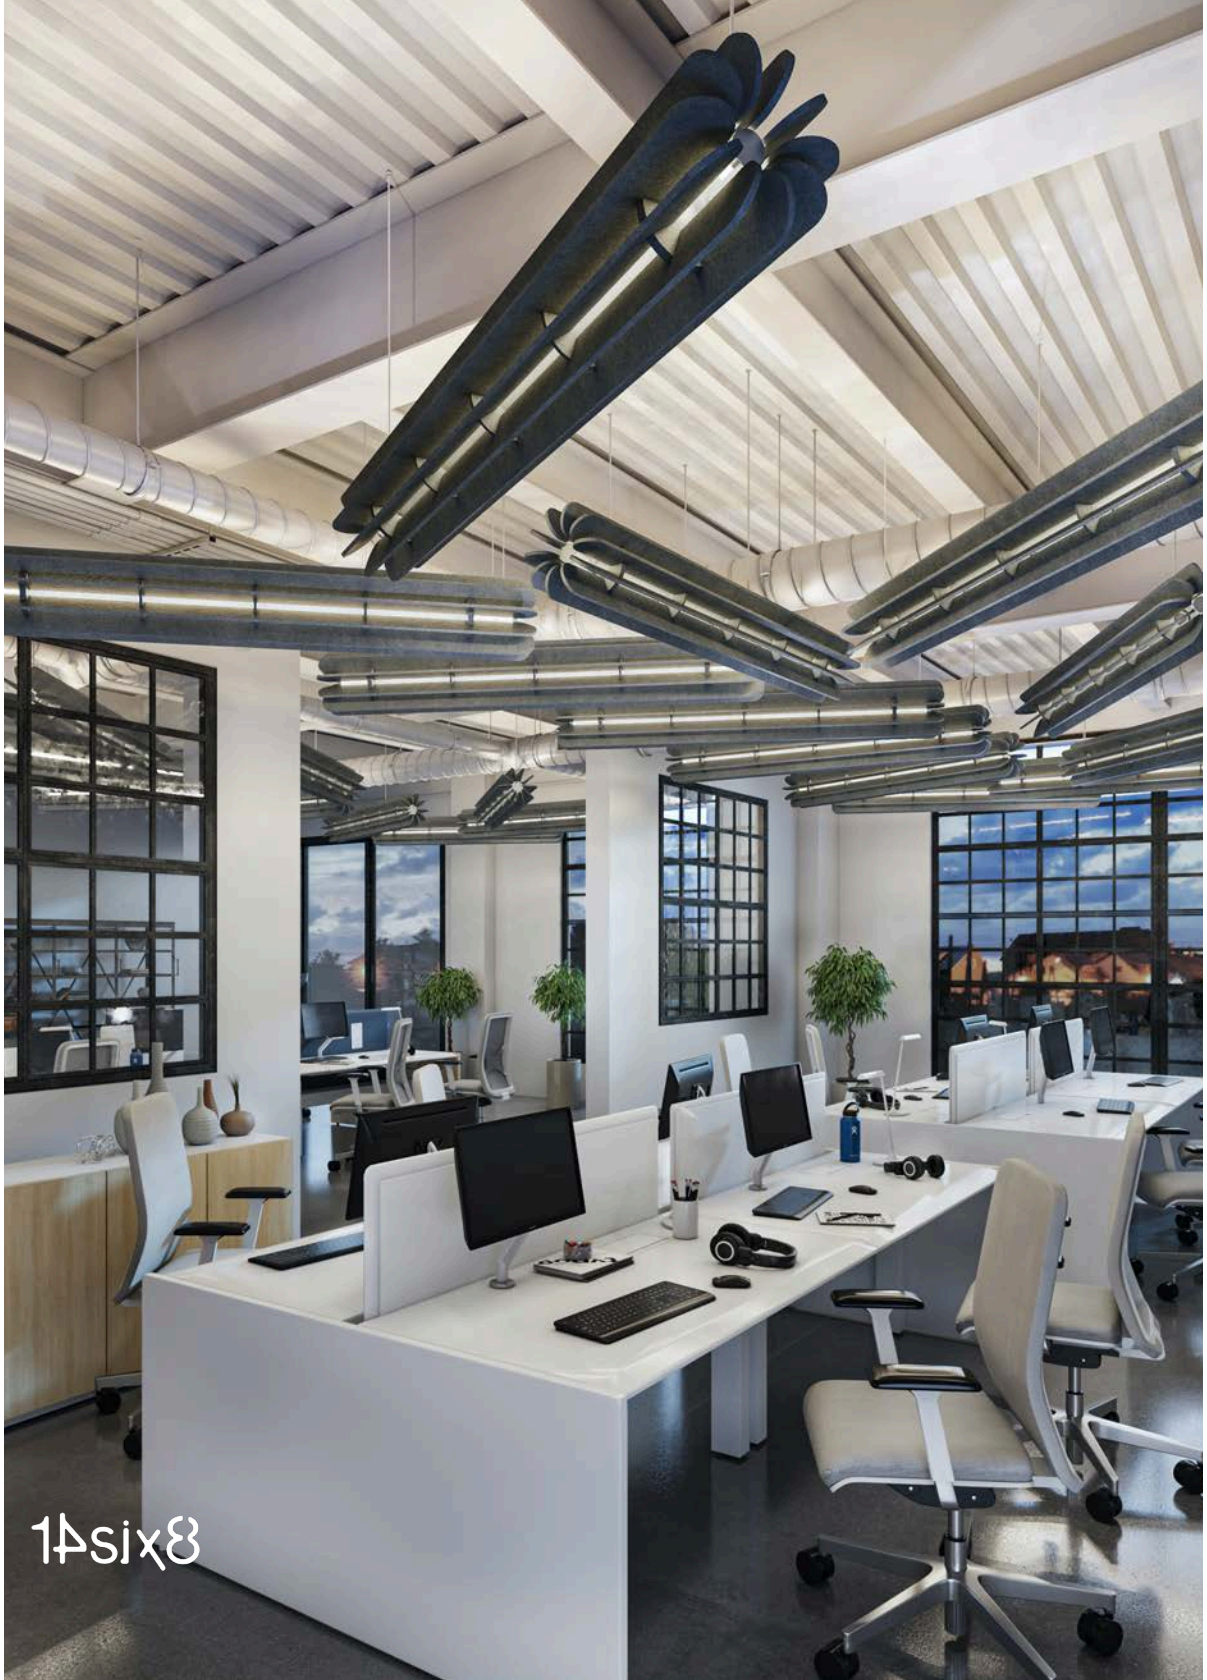
frasch.co/teardrop/

BEND

Give a creative look to any space. BEND LIGHT provides the ample illumination of traditional tube lighting with high-performance LED light and a gently bent PET “roof.”

frasch.co/bend-light/





TIMBER GLOW

Define individual spaces or arrange in clusters to encompass an entire space in almost any desired pattern or orientation, providing both optimal lighting and exceptional reverberation control.

frasch.co/14six8-designs/timber-glow/

HARMONY GLOW

Create the ultimate ambiance with this suspended acoustical light fixture. The unique cut-out pattern provides a chandelier-like luminescence that plays off the surfaces of the space.

frasch.co/14six8-designs/harmony-glow/

Cleaning + Disinfection.

Did You Know... You Can Clean AND Disinfect PET?

Proper cleaning and disinfecting surfaces in public spaces and offices have become increasingly important in the post-COVID environment. Luckily, PET is made from recycled plastic water bottles – so not only is it capable of being properly sanitized it's also extremely easy!

Follow these simple steps to disinfect PET:

1. Choose one of the recommended disinfectants*.
2. Mist the surface of the material with a hand spray applicator. Apply generously.
3. Allow material to air dry.

*For disinfection, common household EPA-registered disinfectants should be effective.
*Please refer to the EPA-approved list of products effective against the virus that causes COVID-19.
*A diluted solution of household bleach (at least 1000 ppm sodium hypochlorite) can be sprayed on. Prepare a bleach solution by combining 1/3 C bleach per gallon of water. Bleach solutions will remain effective for a time period of up to 24 hours.

frasch.co/cleanability/

Info + Sustainability.

All of our acoustical solutions are made with PET acoustical felt, manufactured with 55% post-consumer recycled content.

Sound and Fire Ratings
