

## CONECTA BLOK | Space Divider

Conecta Blok provides privacy and separation in shared spaces and open floorplans. It features a hollow design for optimal sound absorption. Its invisible frame and sturdy base are substantial enough to center this in a space as a permanent divider, yet lightweight enough to make this a modular solution, if preferred. What's more—it ships knock-down and flat, requiring minimal assembly.

### Dimensions:

44" L x 2" W x 63" H

Custom Sizes Available
