

PLANKLOK | Acoustic Ceiling Tile

Choose Planklok, a lightweight alternative to lumber-based woodgrain ceilings, for a quick and dramatic ceiling transformation. Planklok is a folded PET panel that mimics the look of shiplap without the hassle of cutting or installing individual planks. Its true differentiator is the simplicity and uniqueness of its installation and design. Planklok fully conceals standard T-grid ceilings, and its multi-layer construction creates a large air cavity between the ceiling and T-grid structure for perfect sound absorption. Choose woodgrain printed PET to create a warm focal point, or PET in dramatic shades for a contemporary finish. If it suits you, mix-and-match woodgrain and solid PET for a dramatic, custom look.

Dimensions:

- 56" L x 24" W x 2" H

Colors:

- 36 color options
(9mm felt)
